DM1600

Digital Mobile Radio

Description

Stay connected with your workers whether they're delivering cargo, dispatching lorries or driving a bus or tram. The MOTOTRBO™ DM1600 mobile radio (with alphanumeric display) is a reliable, cost-efficient solution to keep your team in contact so they can communicate, coordinate and collaborate for maximum efficiency and safety. The DM1600 is designed for the everyday driver, so you can connect without distraction.

This analogue/digital mobile radio offers all the benefits of the latest technology – from superior audio quality to greater coverage. It's also compatible with advanced MOTOTRBO™ business-essential features, such as Transmit Interrupt (decode only) to prioritize critical communication. The bright, high-contrast alphanumeric display allows drivers to see important information such as settings and caller ID at a glance.

The analogue-only model of the DM1600 allows you to upgrade to digital with a simple software package when the time is right for you. The DM1600 is easy to use and delivers clear communication for maximum efficiency of your operation. MOTOROLA also offers the MOTOTRBO™ DM1400 mobile radio with numeric display.

Functions:
