Milestone XProtect Express+ Device license

- ✓ Device license for Xprotect Express+
- ✓ Note! One licence per device/camera

Description

The XProtect Express+ Device License from Milestone enables you to add one additional camera to your XProtect Express+ system. One license is required per camera channel.

XProtect® Express+ is video management software (VMS) for smaller, single-site companies with a light need for live video monitoring. Supporting up to 48 cameras and the ability to integrate with existing operations, such as access control and people counting, XProtect Express+ is the perfect match for smaller sites.
