

9021906001

Grey Back Box Assembly for 2 x L101 DC

Description

The STB2 is customisable visual signals featuring a tower of two L101 type beacons.

- ✓ Pre-wired junction box and cable loom enabling the end user to determine beacon type and position during installation.
- ✓ Multiple configurations of Xenon and LED beacons.
- ✓ Internal cable loom and termination PCB simplifies installation.
- ✓ Common negative/neutral supply minimises cabling.
- ✓ High output LED unit can be set to steady or flashing.
- ✓ Sealed to IP66.
