## Description

The Mezzo 602 AD is a 600W/2-channel compact music amplifier with DSP and Dante™ from the manufacturer Powersoft.

Mezzo 602 AD heralds the same levels of reliability, build quality, and acoustic proprieties of any Powersoft amplifier platform, in half the size. Exceedingly flexible, "AD" versions of Mezzo offer all the remote control and monitoring functions of the "A" versions, further extending networking capabilities with Dante and AES67. The small form factor allows it to be mounted anywhere thanks to the included mounting kit.

AD versions of Mezzo add audio networking capabilities with DanteTM/AES67 and an internal Gigabit Ethernet switch with a second port so that multiple products can share the same network.

The smaller versions of Mezzo music amplifier are sealed designs, therefore approved for hidden placement, such as mounted above the ceiling or tucked in a wall box.

The included rack-mounting accessories allow for 1 or 2 Mezzo in a 19" Rack and the included wall-mount brackets allow it to be mounted on any flat surface, also under a table or in the ceiling.
