Description

The BOA01 is a DIN rail mount RJ45 cable break out adaptor

It has many uses in providing connections from non-RJ45 installation wiring to ASL VIPEDIA Audio routers, and to similar equipment with RJ45 connections. The primary applications are:

- ✓ Break out all of the connections from one RJ45 port, to eight screw terminals.
- ✓ Break out of the two Audio Input connections from each of four VIPEDIA-12 Audio Input
