### Description

The EXF2230-52-A4 ExSite Enhanced Series 2 Camera is purpose-built to monitor operations and control processes in hazardous locations with risks of explosion, due to the presence of flammable liquids, gases, or dust. The camera's heavy-duty housing meets stringent explosion-proof and dust ignition-proof requirements while complying with international standards (UL, CSA, ATEX, IECEx, EACEx, KCs, UKEx, INMETRO) and is built with AISI 316L stainless steel construction for exceptional resistance to corrosion, which guarantees efficient video surveillance in offshore marine environments.

EXF2230-52-A4 ExSite Enhanced Series 2 Camera

It provides operators crisp and clear evidence with up to 30X optical zoom with true WDR and low light capabilities for challenging lighting conditions common to hazardous areas. H.264 AND H.265 smart compression technology retains image quality and critical information while reducing bandwidth requirements to lower cost of ownership. The camera is also ONVIF® COMPLIANT with ONVIF Profile S, T, G and Q. This compliance allows easy integration with existing ONVIF infrastructures.

The EXF2230-52-A4 ExSite Enhanced Series 2 Camera allows users to see in total darkness or blinding light within hazardous environments.
