DP2400e

Digital Portable Radio

Description

With this dynamic evolution of MOTOTRBO™ digital two-way radios, you're better connected, safer and more efficient. The DP2000e Series is designed for the everyday worker who needs effective communications. With systems support and loud, clear audio, these next-generation radios deliver cost-effective connectivity to your organisation.

DP2000e Series includes:
DP2400e
DP2600e

The DP2400 is a non-display model that features 16-channel capacity, two programmable buttons and IP55 specifications for water and dust protection. Available in UHF and VHF frequency bands.

Intelligent Audio and voice announcement features enable easy communication in difficult work environments. Also, DP2400 series is analogue interoperable, enabling you to make the transition to digital at your own pace, all at a value that adds up.

Functions:
