

Installing TCIA-2-P

Item Number	Item Name	Description
1008113120	TCIA-2-P	Package with TCIA-2 / TKIA-2 / TKIS-2
1008113020	TCIA-2	Analog over IP Intercom
1008133020	TKIA-2	Analog over IP Gateway with 8-wire cable
1008131020	TKIS-2	VoIP Intercom Module

1 Connecting the TKIA-2 and TKIS-2

The 8-wire cable provided is used for connecting the TKIA-2 Gateway to the TKIS-2 Intercom. The color-coded wires serve as a visual aid to connecting to the correct pins at both ends.

- Using the 8-wire cable, connect the pins on the TKIA-2 to the corresponding pins on the TKIS-2 according to the schematic above.

2 Connecting the TKIA-2 and TCIA-2

An FTP cable (maximum 60 meters) is used to connect the TKIA-2 Gateway to the TCIA-2 Intercom.

- Using the FTP cable, connect the RJ45 port on the TKIA-2 to the RJ45 port on the TCIA-2.
