## RELEASE BULLETIN

### IP-CROR Cleanroom/OR IP Station Release

To: All Zenitel Offices & Partners

March 25, 2021

As already pre-announced in February, Zenitel is pleased to announce the release of a new IP Station.

- 1008415000 IP-CROR Cleanroom/OR IP Station

The station replaces:

- 1008015000 Cleanroom/OR IP Station

The new station will be available for ordering as from April 6, 2021. Limited numbers of the 1008015000 will still be available until stock is depleted.

#### Main Features

The new station looks and operates in the same way as the one it replaces. But a key functional enhancement is that it is now possible to use it as the Edge Controller in an IC-EDGE system.

Further enhancements include:

- Secure boot: only software that has been signed by Zenitel is able to run on the device
- 2 software partitions: like TCIV+ and ICX-500, upgrading the software causes much less downtime. The station remains operational while the software is upgraded, and the only downtime is during station reboot after the upgrade.
- Using the web interface, software upgrade is very easily done by simply dragging and dropping the new software in the appropriate box on your screen.
- Faster reboot time

#### Your Feedback

If you have any questions related to this bulletin, please contact your local Zenitel sales representative. We look forward to further developing our cooperation in 2021 and are grateful for your continued business and support.
