

RELEASE BULLETIN

NEW ALPHACOM IP PUBLIC ADDRESS SERVICES

GENERAL AVAILABILITY

To: All Zenitel offices and Vingtor-Stentofon partners.

Date: 29-05-2018

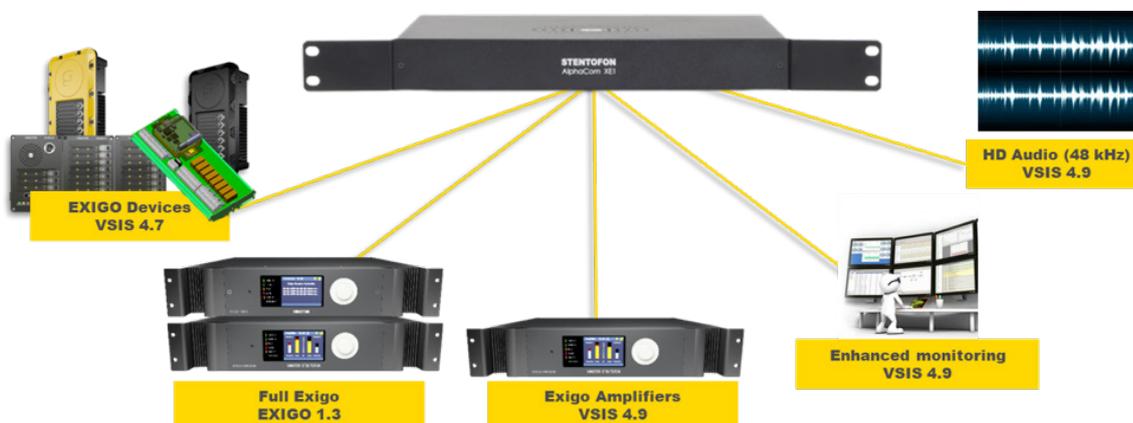

Zenitel is pleased to announce the general availability release of new AlphaCom IP Public Address Services.

The release includes the following software packages: Major improvements and bug fixes

- VSF-Turbine version 4.9.3.0
- VS-IMT version 1.4.3.3
- INCA version 2.8.3.0
- AlphaSys 12.5.3.0
- AlphaPro 11.7.3.2

Overview

AlphaCom has inherited a set of new IP Public Address Services from Exigo. With the new features AlphaCom is able to provide a strong IP PA offering.

The figure above shows overview of new IP Public Address services that is inherited from Exigo. The main features and capabilities are:

1. Connect Exigo amplifiers to Exigo without use of Exigo system controllers
2. Enhanced PA monitoring
3. HD audio for background music distribution

It should also be noted that we in the two previous releases added several Exigo capabilities to AlphaCom. The main parts were:

- Ability to use Exigo PA panels connected to AlphaCom (Supported from VSIS 4.7)
- Ability with IP connection between AlphaCom and Exigo. AlphaCom got capability to address wide set of Exigo services (Supported from Exigo 1.3)

Licenses

Two new license types have been added to AlphaCom. These are ENA Amplifier Channel License and HD Audio License. You would need one ENA Amplifier Channel License per amplifier channel. The HD Audio License is per AlphaCom server.

New item numbers are:

Item number	Description
1009641701	License for 1 Exigo amplifier channel
1009641702	License for 2 Exigo amplifier channels
1009641703	License for 3 Exigo amplifier channels
1009641706	License for 6 Exigo amplifier channels
1009641712	License for 12 Exigo amplifier channels
1009648510	High bandwidth audio license
